

Book Release and Signing

May 13, 2019 4:30pm—8:30pm

The Works, 20 Grear Millitzer Pl, Loveland, OH

Luce the Goose, is based on a true story. This beautiful white wild Pilgrim goose showed up at our house one day. In fact, Luce didn't just show up, it appeared he was infatuated with his own reflection in my black Jeep. For days, every time I looked out the window, he was back - just staring at his own reflection. The question that took us some time to answer was, "did he just like looking at himself" or "did he think his reflection was another goose that could be his friend?" The photographs in this book help capture some of the most memorable moments of Luce's quest for love. As amazing as this true story is, the real amazement is the lesson that Luce teaches us all!

KAY BOLIN was elected the 2018 Loveland, Ohio, Valentine Lady and part of her responsibility was to visit community schools (Pre-K through 3rd grade classes). Kay decided that would be a great time to share the true story of Luce the Goose and the lessons learned from Luce with the classes (approximately 1200 children plus their teachers). The story and lesson mesmerized the students and their teachers. The response is what inspired Kay to write this children's book. Enjoy and please don't forget to share love and kindness because the opportunity is everywhere and the reward is the best feeling ever!

GREGG LITCHFIELD is a digital and watercolor artist from the wonderful area of Loveland, OH. He specializes in transforming photographs into digital paintings using his unique process he calls "Paintography". You can see his work at www.LitchfieldArtworks.com.
