

Are you interested in Esports?

Do you play games competitively?

Are you all about cracking the new META?

If so, join us this summer, **June 9-15, 2019**, at our second annual **Esports Summer Camp** on the Miami University campus in Oxford, OH! Network, play, and learn in our state-of-the-art facilities from the nationally ranked faculty, staff and students that built the first Division 1 Varsity Esports team.

For \$1100, you'll spend a week living at Miami and attending daily classes on the history, culture and business of Esports. There will be a LAN event each night, focusing on a specific genre of games, daily physical training (just like our varsity players), and guest appearances by our Varsity Esports team members and industry partners. Camp fees also include all meals and lodging.

Everyone is welcome, age 12-18. No level of game knowledge or experience is necessary, but we will have opportunities for talented players to compete against some of our Varsity's finest.

If you'd like to know more about the camp, contact Phill Alexander at phill.alexander@miamioh.edu, or you can register using the QR code/link below.
